Why Choose Us: The Reflective Lighting Advantage

Our #1 product is customer service:

You'll find a highly responsive, creative, and solutions-minded team at Reflective Lighting. Our experts are able to facilitate the most unique project challenges.

Our products are designed with you in mind:

Flexibility is the greatest element of design. All our products can be customized in size, shape and functionality. With so many options to choose from, you're only limited by your imagination.

Attention to detail is our specialty:

We use energy efficient LED illumination, all components are UL and CUL listed, and our mirrors include safety film and corner guards for ease of installation.

No job is too big or too small:

Our custom order manufacturing process allows us to be quick and nimble with our order quantities. Whether it's one mirror or hundreds, we can get you what you need.

We take the guesswork out:

We provide extra mirrors with most orders to eliminate any issues with accidental breakage.

We're aggressive in all the right places:

Our pricing structure is designed to make you competitive, and our swift quoting process is intended to give you the answers you need when you need them.

We're easy to do business with:

From real-time inventory tracking to order acknowledgements, quick ship turnaround time to shipment tracking, you'll know exactly where your order is.

Backed by our service guarantee:

All products are made of high-grade commercial components and offer a 5-year warranty.

Style & Sophistication

Reflective Lighting helps you illuminate a variety of spaces with our Lighted LED Mirrors; available in round, oval, square or rectangle shapes. You can also bring style and the convenience of elegant storage to any environment with our LED Mirrored Cabinets. Our commercial grade LED mirrors are perfect for hotels, spas, salons, and make-up studios as well as make a beautiful upgrade for your bathroom remodel.

Elements of Design: *LED Mirrors & Cabinets*

Edge-to-Edge Technology:

Edge to edge technology allows for a sleeker, thinner design and offers a softer, easy to look at light that eliminates any glare, shadows or hot spots. It's the best of today's technology, with evenly lit, dimmable LEDs packed into a masterful decorative piece that will transform any space instantly.

Touch Control:

With our simple one-touch dimming system you can not only set your preferred light level, but you have the flexibility of changing the color temperature from a cool 6,000K task lighting option to a warm, sunny 3,000K ambient glow. With the quick touch of a fingertip, our mirrors offer to a multitude of choices including: multiple color temperatures, dimming, Bluetooth speaker on/off, volume up/down, heat (anti fog) on/off and can even display the time and temperature.

Safe & Effective:

Every mirror has a safety film that will hold the glass intact in the unfortunate event it gets broken, keeping sharp edges and shards of glass on the mirror, not your floor. All components are UL listed for your safety to ensure you have a properly functioning mirror for years to come!

Better All Around:

From the manufacturing process to superior components to safety...these mirrors are just better all around. We take pride in our processes that allow us to bring you the highest quality product in the marketplace. All backed by a 5-year warranty each mirror passes 5 point testing and inspection post manufacturing ensuring you are getting the best of the best when you open the box.

Quick View LED Illuminated Mirrors

Bring style and sophistication to any environment with our wall mounted LED Illuminated Mirrors.

Available in round, oval and rectangular shapes, your preferred size is fully customizable. You may choose from a 2-Bar Top/Bottom or Left/Right illumination (rectangle only), a mirrored edge illumination, or an offset 2 inches from the edge to match your design aesthetic. With our simple one-touch dimming system you can not only set your preferred light level, but you have the flexibility of changing the color temperature from a cool 5,000K task lighting option to a warm, sunny 3,000K ambient glow. As an added bonus, all mirrors can be upgraded with an integrated LED clock or Bluetooth speaker giving you even more user friendly options. Our commercial grade mirrors are perfect for hotels, spas, salons, and make-up studios as well as make a beautiful upgrade for your bathroom remodel.
